#### LIMITED PRODUCT WARRANTY

FirePro Systems Limited ("FirePro") hereby certify that all FirePro HERO Condensed Aerosol Fire Extinguishing Units ("HERO Manual Units") are built to rigorous engineering and manufacturing standards, are inspected and are covered by a three (3) year (from the date of purchase) warranty, to be free from defects in material and workmanship and a three (3) year (from the date of purchase) warranty, to be fit-for-the-purpose. The warranty does not cover defects resulting from modification, alteration or misuse and exposure to corrosive conditions or exceptionally high temperatures. The warranty is valid provided that the HERO Manual Units have been stored and used appropriately by a trained and authorized professional in accordance with the Use Manual. Accordingly, client records must verify that the Units have been serviced and maintained in accordance with the Use Manual.

#### PRODUCT DISCLAIMERS

Except as provided above FirePro Systems makes no representations or warranties of any kind, whether express or implied, for the FirePro Condensed Aerosol Fire Extinguishing Units, including but not limited to warranties of merchantability, fitness for a particular purpose, of title, or of non-infringement of third party rights, including the intellectual property rights of others. This warranty is in lieu of and FirePro Systems expressly disclaims all other warranties, express or implied, including but not limited to fitness for a particular purpose and merchantability.

#### LIMITATION OF LIABILITY

In no event, regardless of cause, FirePro Systems shall be liable for any indirect, special, incidental, punitive or consequential damages of any kind, whether arising under breach of contract, tort (including negligence), strict liability or otherwise, even if advised of the possibility of such damages.

HERO**

# Designed for Trained Emergency Responders

A firefighting tool to manage various fire scenarios.

HERO units are used by trained first responders and other emergency personnel including firefighters, safety officers, the police and paramedic teams. FirePro HERO is an integral tactical tool used in modern firefighting strategies.

### Deployment & Usage

HERO is an emergency fire suppression tool used in fighting raging and or hard to get to fires:

- It buys the critical time necessary to prepare for full scale firefighting operations.
- It helps create a path to the source of fire to fight it more effectively

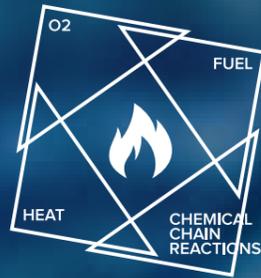

It ultimately helps to save lives and property.

### Coverage

Coverage depends on the specific characteristics of the fire scenario. That and product specifications must be considered when determining the number or size of HERO manual units to be used.

### Green Technology

As with all FirePro Units, the FPC Condensed Aerosol Producing Compound in HERO is friendly to the environment.

## How Our Technology Works

FirePro technology is effective and efficient. It extinguishes fire by inhibiting the chemical chain reactions on a molecular level, without depleting oxygen.

# FirePro. Manual Units Product Line

■ **FP-200M**  
PRODUCT CODE: 10143

### FirePro Fire Extinguishing Manual Unit FP-200M

- Weight (gross): 1800 g
- Mass of FPC Compound: 200g
- Operational discharge time: 10 - 15sec
- Discharge outlets: 1
- Discharge length: 2m
- Height: 150mm Ø: 84mm
- Self activation temperature: 300°C

■ **FP-500M**  
PRODUCT CODE: 10347

### FirePro Fire Extinguishing Manual Unit FP-500M

- Weight (gross): 1910 g
- Mass of FPC Compound: 500g
- Operational discharge time: 10 - 15sec
- Discharge outlets: 1
- Discharge length: 2m
- Height: 150mm Ø: 84mm
- Self activation temperature: 300 °C

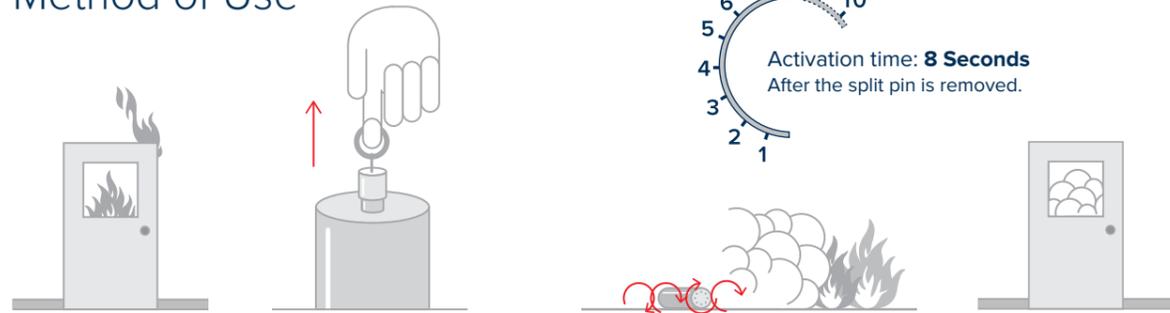

■ **FP-1000M**  
PRODUCT CODE: 10146

### FirePro Fire Extinguishing Manual Unit FP-1000M

- Weight (gross): 2240 g
- Mass of FPC Compound: 1000g
- Operational discharge time: 20 - 25sec
- Discharge outlets: 2
- Discharge length: 3m
- Height: 200mm Ø: 84mm
- Self activation temperature: 300°C

## Method of Use

1

Check that the door is **closed**

2

Remove the activation split pin

3

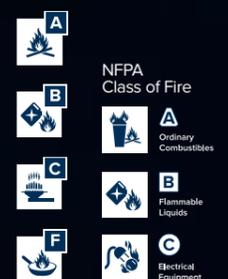

**Throw or roll** the fire extinguishing unit **towards the fire**

4

Make sure the door remains shut for **at least five minutes**

EN  
Class of Fire

The splash-proof, dust-proof and shock-proof FirePro HERO Case can carry up to two HERO units.

**Operational Clause Instructions:** Product to be handled by professionals or trained individuals as the discharged aerosol is of elevated temperature and thus must be handled with care. Good firefighting practices should be applied under all circumstances.
